

Piece 1:

Hook:

If you've been trying to make ecommerce work for a while now, and it's just not playing out like you had imagined, then I've got something for you.

You've probably been launching rinse and repeat stores that have super thin margins, rely on virality, and get a revolving door of customers.

Superhook:

I became an ecommerce millionaire and am currently running two separate brands with over \$3,000,000 in sales each.

Lead:

The reason that you keep ending up back at square one with nothing to show for yourself has nothing to do with ecommerce.

You already know that the business model works, otherwise you would have given up on it a long time ago.

The real issue is the way that you were taught to run these brands in the first place.

Body:

I flipped the script by focusing on retention above all else.

It brings way higher margins, prevents having to restart all the time, and helps create enterprise value.

I'm hosting a free live masterclass where I'll be showing you how to build and scale seven-figure brands using the retention method.

The first pillar is how to select repeat-purchase products in high-performing niches.

The second pillar is how to build your brand for longevity.

The third pillar is how to scale your brand with an organic and paid hybrid.

This is how my students are getting returning-customer rates above thirty percent.
